Tender No. NATRAX/ADMIN/TPA/265(VOL-1) /21/021.

NATRAX is one of the state-of-the-art testing and certification centres under NATRiP, a flagship project of Ministry of Heavy Industries, Govt of India planned under the Automotive Mission Plan launched by Government of India. It is located in the vibrant industrial township of Pithampur (Dist Dhar) on 2,960 acres of land offered by Government of Madhya Pradesh. NATRAX is a modern Automotive Proving Ground and provides one stop solution for comprehensive testing and evaluation, Research & Development and Certification to entire automotive and auto component industries.

The objective of NATRAX proving ground is to offer world-class testing and evaluation services catering for all categories of vehicles from 2/3 wheelers to heavy commercial vehicles as per National and International standards. NATRAX is emerging as a Centre of Excellence for Vehicle Dynamics to cater for the design and development activities of OEM's in the country and abroad. The test tracks at NATRAX, while are meant primarily for development tests for Automotive and Auto component sector can also be used for homologation tests.

NATRAX proving ground consists of 14 different types of test tracks viz., High speed Track, Dynamic Platform, Multi friction Braking Track, Fatigue Track, Gradient Track, Gravel and off road track, Handling Track, Comfort Track, Handling Track for 2&3 wheelers, Sustainability Track, Wet skid pad, Noise track, General road along with Dust Tunnel, Water wading trough, Salted Water wading trough, Shower test rig etc. for comprehensive testing and evaluation, Research & Development and certification of vehicles. These test tracks are open-air laboratories with stringent specifications and quality control to meet International standards. All these test tracks/facilities are ready.

NATRAX also contains state-of-the-art Vehicle Dynamics Lab and Power Train Lab complimented by CAE (Computer Aided Engineering) Lab, Instrumentation Lab, Client Workshops and General Storage building as support facilities. The Vehicle Dynamics Lab houses one of its kind facility in the country i.e. Kinematics and Compliance (K&C) Test rig for measurement of suspension parameters and Damper Test rig, Elastomer Test rig & Steering Test rig for measurement of performance of components, which can be used for mathematical modelling and prediction of performance using CAE tools and improve ride and handling characteristics in automobiles. The Power Train Lab contains a Chassis Dynamometer coupled with Emission measurement system capable of benchmarking and testing compliance to emission norms of National and International regulations. These laboratories are operational and in use by the Industry.

NATRAX, Indore located in central auto-cluster of the country is being used by most of the Automotive OEMs and component manufacturers for comprehensive performance evaluation, R&D and homologation by the Automotive Industry from India and abroad.

National Automotive Test Tracks (NATRAX-Indore) invites sealed quotation (in tow bid system) from reputed Firms/TPAs, who have at least 5 years' experience in similar matters for **“Group Medi-claim Insurance (GMI) & Group Personal Accident Policy (GPA) of the Employees of NATRAX Pithampur, MP”**.
